**THOUGHTS & IMAGES**
What did I think or imagine at that time? What went through my mind? What did that say or mean about me or the situation?

**FEELINGS**
- Emotions / Moods
  - What emotion did I feel at the time? How intense was that feeling? (0-100%)
- Physical / Body sensations
  - What did I notice in my body? What did I feel? Where did I feel it?

**BEHAVIOURS**
- What did I do at that time? What did I avoid doing? What was my automatic response? What would a fly on the wall have seen me do?

**ALTERNATIVE THOUGHTS & IMAGES**
Is this fact or opinion? What am I reacting to? What other ways of looking at it are there? What's the bigger picture? What advice would I give someone else? What might be a more helpful way of picturing it?

**ALTERNATIVE FEELINGS**
- What could I feel (if I acted / thought differently)?
- Tell yourself: “This feeling will pass. It’s a normal body reaction.”
- Breathe – focus your attention on your breathing. Imagine you have a balloon in your belly, inflating on the in-breath, deflating on the out-breath.

**ALTERNATIVE BEHAVIOURS**
- What could I do that would be more helpful and effective? What’s the best thing to do: for me, for others, for the situation?
